

Agenda

Breakout Seminar

Workshop: DIY with Biodiversity in Your Yard “Wings & Petals: Crafting Nature’s Harmony”

Date: 6 November 2025 Time: 08.30 - 12.00

At Room MR103 Queen Sirikit National Convention Center (QSNCC)

Program Overview

Wings & Petals: Crafting Nature’s Harmony is a youth-focused program that integrates science, art, music, and community engagement to highlight the beauty and importance of biodiversity. Through playful, hands-on activities, participants will explore pollinators, natural products, biomimicry, and biodiversity-inspired crafts. The program culminates with an inquiry-based community project, empowering young learners to become biodiversity ambassadors who connect curiosity, creativity, and care for the natural world.

Speakers

Senior Core Trainer and core trainers, The Little Scientists’ House Project NSTDA Network
